

Are you going global with SAP?

THEN DON'T START WITHOUT US! HERE'S WHY:

Take advantage of one of SAP's greatest capabilities: multilingual support. By translating your SAP transactions, reports, and customizing and master data texts, your employees will have a much easier time using the software you've invested so much in. Sound daunting? It doesn't have to be. Our SAP-certified translation consultants will help you devise a translation strategy tailored to your needs, And our SAP add-ons for translation help make the process straightforward and efficient.

With text&form's SAP Translation Prep we'll determine the number of texts in your SAP system that should be considered for translation, remove technical roadblocks, create a project roadmap, and also provide a cost estimate. We'll also work with you to define the translation scope for each language. This will allow you to make an informed decision on what you actually need to translate, and what to exclude from the project.

We'll provide you with the information you need to plan your SAP translation project. SAP Translation Prep – ensuring the optimal SAP rollout.

What you can expect from SAP Translation Prep

SAP Translation Prep is an SAP language consulting service offered to organizations planning a global SAP rollout. It enables you to plan and execute the most cost-effective translation of your SAP developments and customizations.

This is how we do it:

- » Define a tailor-made translation strategy
- » Determine the translation volume and provide a qualified cost estimate
- » Set up your SAP system for translation
- » Optimize and reduce the project scope for each language
- » Deploy our add-ons for translation to simplify scoping and save costs

WHY CHOOSE TEXT&FORM FOR YOUR SAP TRANSLATION PREP?

text&form has been a trusted SAP translation partner since 2004. Our linguists have been trained by SAP and we are one of few certified SAP Language Consultancy Partners worldwide. Not only has text&form twice been selected as the number one translation provider for SAP, but we've proven ourselves time and again to be a reliable, flexible and helpful partner. With our expertise and specialized tool suite for translation, we are equipped like no other vendor out there to support your company in achieving a smooth rollout in any and all languages supported by SAP. Still not convinced? Read what one of our customers has to say:

"text&form has been a great partner to work with on this journey from the very outset. Our team has really appreciated text&form's extensive SAP expertise, contributions and readiness to pitch in and help solve the unexpected problems we encountered along the way. I would highly recommend working with text&form. In fact, we have a number of additional projects on our radar that I am entrusting to text&form, secure in the knowledge that, with their team, I'm in good hands and can deliver a top-notch product ahead of the committed schedule."

– Senior Director, Corporate Development and Analyst Relations, Utopia Global, Inc.
