text & form

Your customers are global.
Your SAP Add-Ons should be, too.

TRANSLATING SAP ADD-ONS

Do you develop and sell SAP Add-Ons? Are your clients asking when your add-ons will be available in more languages? Our SAP translation experts will localize your custom ABAP developments in up to 40 languages, assisting you with any technical and strategic questions along the way.

SAP translation is a complex endeavor, and it takes specialized expertise to avoid its many pitfalls. That's where our team of experienced SAP translators, project managers and consultants comes into play. They are experts at using SAP's translation tools, which include transactions SE63 and LXE_MASTER, to develop a translation strategy tailored to your needs.

When you work with text&form, we will set up the translation environment in your SAP system, ensure the correct use of SAP terminology, and translate your SAP user interfaces in transaction SE63.

Translating your SAP Add-Ons means:

» Defining the scope of your project and determining the translation costs

» Setting up your SAP system for translation

» Translating all relevant elements into any of the 40 official SAP languages

» Assisting you with technical and strategic questions

» Making use of a large network of qualified and experienced SAP translators

ONE MILLION SAP LINES TRANSLATED EVERY YEAR • SAP LANGUAGE SERVICES SUPPLIER OF THE YEAR 2014-2015

WHY CHOOSE TEXT&FORM FOR YOUR SAP ADD-ONS TRANSLATION?

Our team consists of experienced SAP translators, project managers and engineers, with proven expertise: we were named SAP Translation Partner of the Year in 2010 and SAP Language Services Supplier of the Year 2014-2015. Not only are we a certified SAP Translation Partner, but we are also one of the few SAP Language Consultancy Partners worldwide, making us uniquely qualified to deliver the very best translation results for your SAP Add-Ons.

Our long-standing partnership with SAP gives us access to SAP's latest innovative translation technology and an extensive network of qualified translators for added scalability.

TEXT&FORM OFFERS LANGUAGE SERVICES FOR PEOPLE, BY PEOPLE.

text&form has enabled leading brands to effectively communicate in worldwide markets since 1996. The company's industry-leading reputation has been built on consistently high-quality deliverables and responsive customer service.

Your SAP Add-Ons will be delivered:

» **Complete.** Your SAP screens will be translated completely, without any texts missing.

» **Correct.** Our experienced SAP translators deliver high-quality translations.

» **Compliant.** The process we use follows SAP's best practices for translation.

» **Cost-reduced.** SAP translation features such as Automatic Distribution, Proposal Pool and Scoping ensure that costs are minimized.
